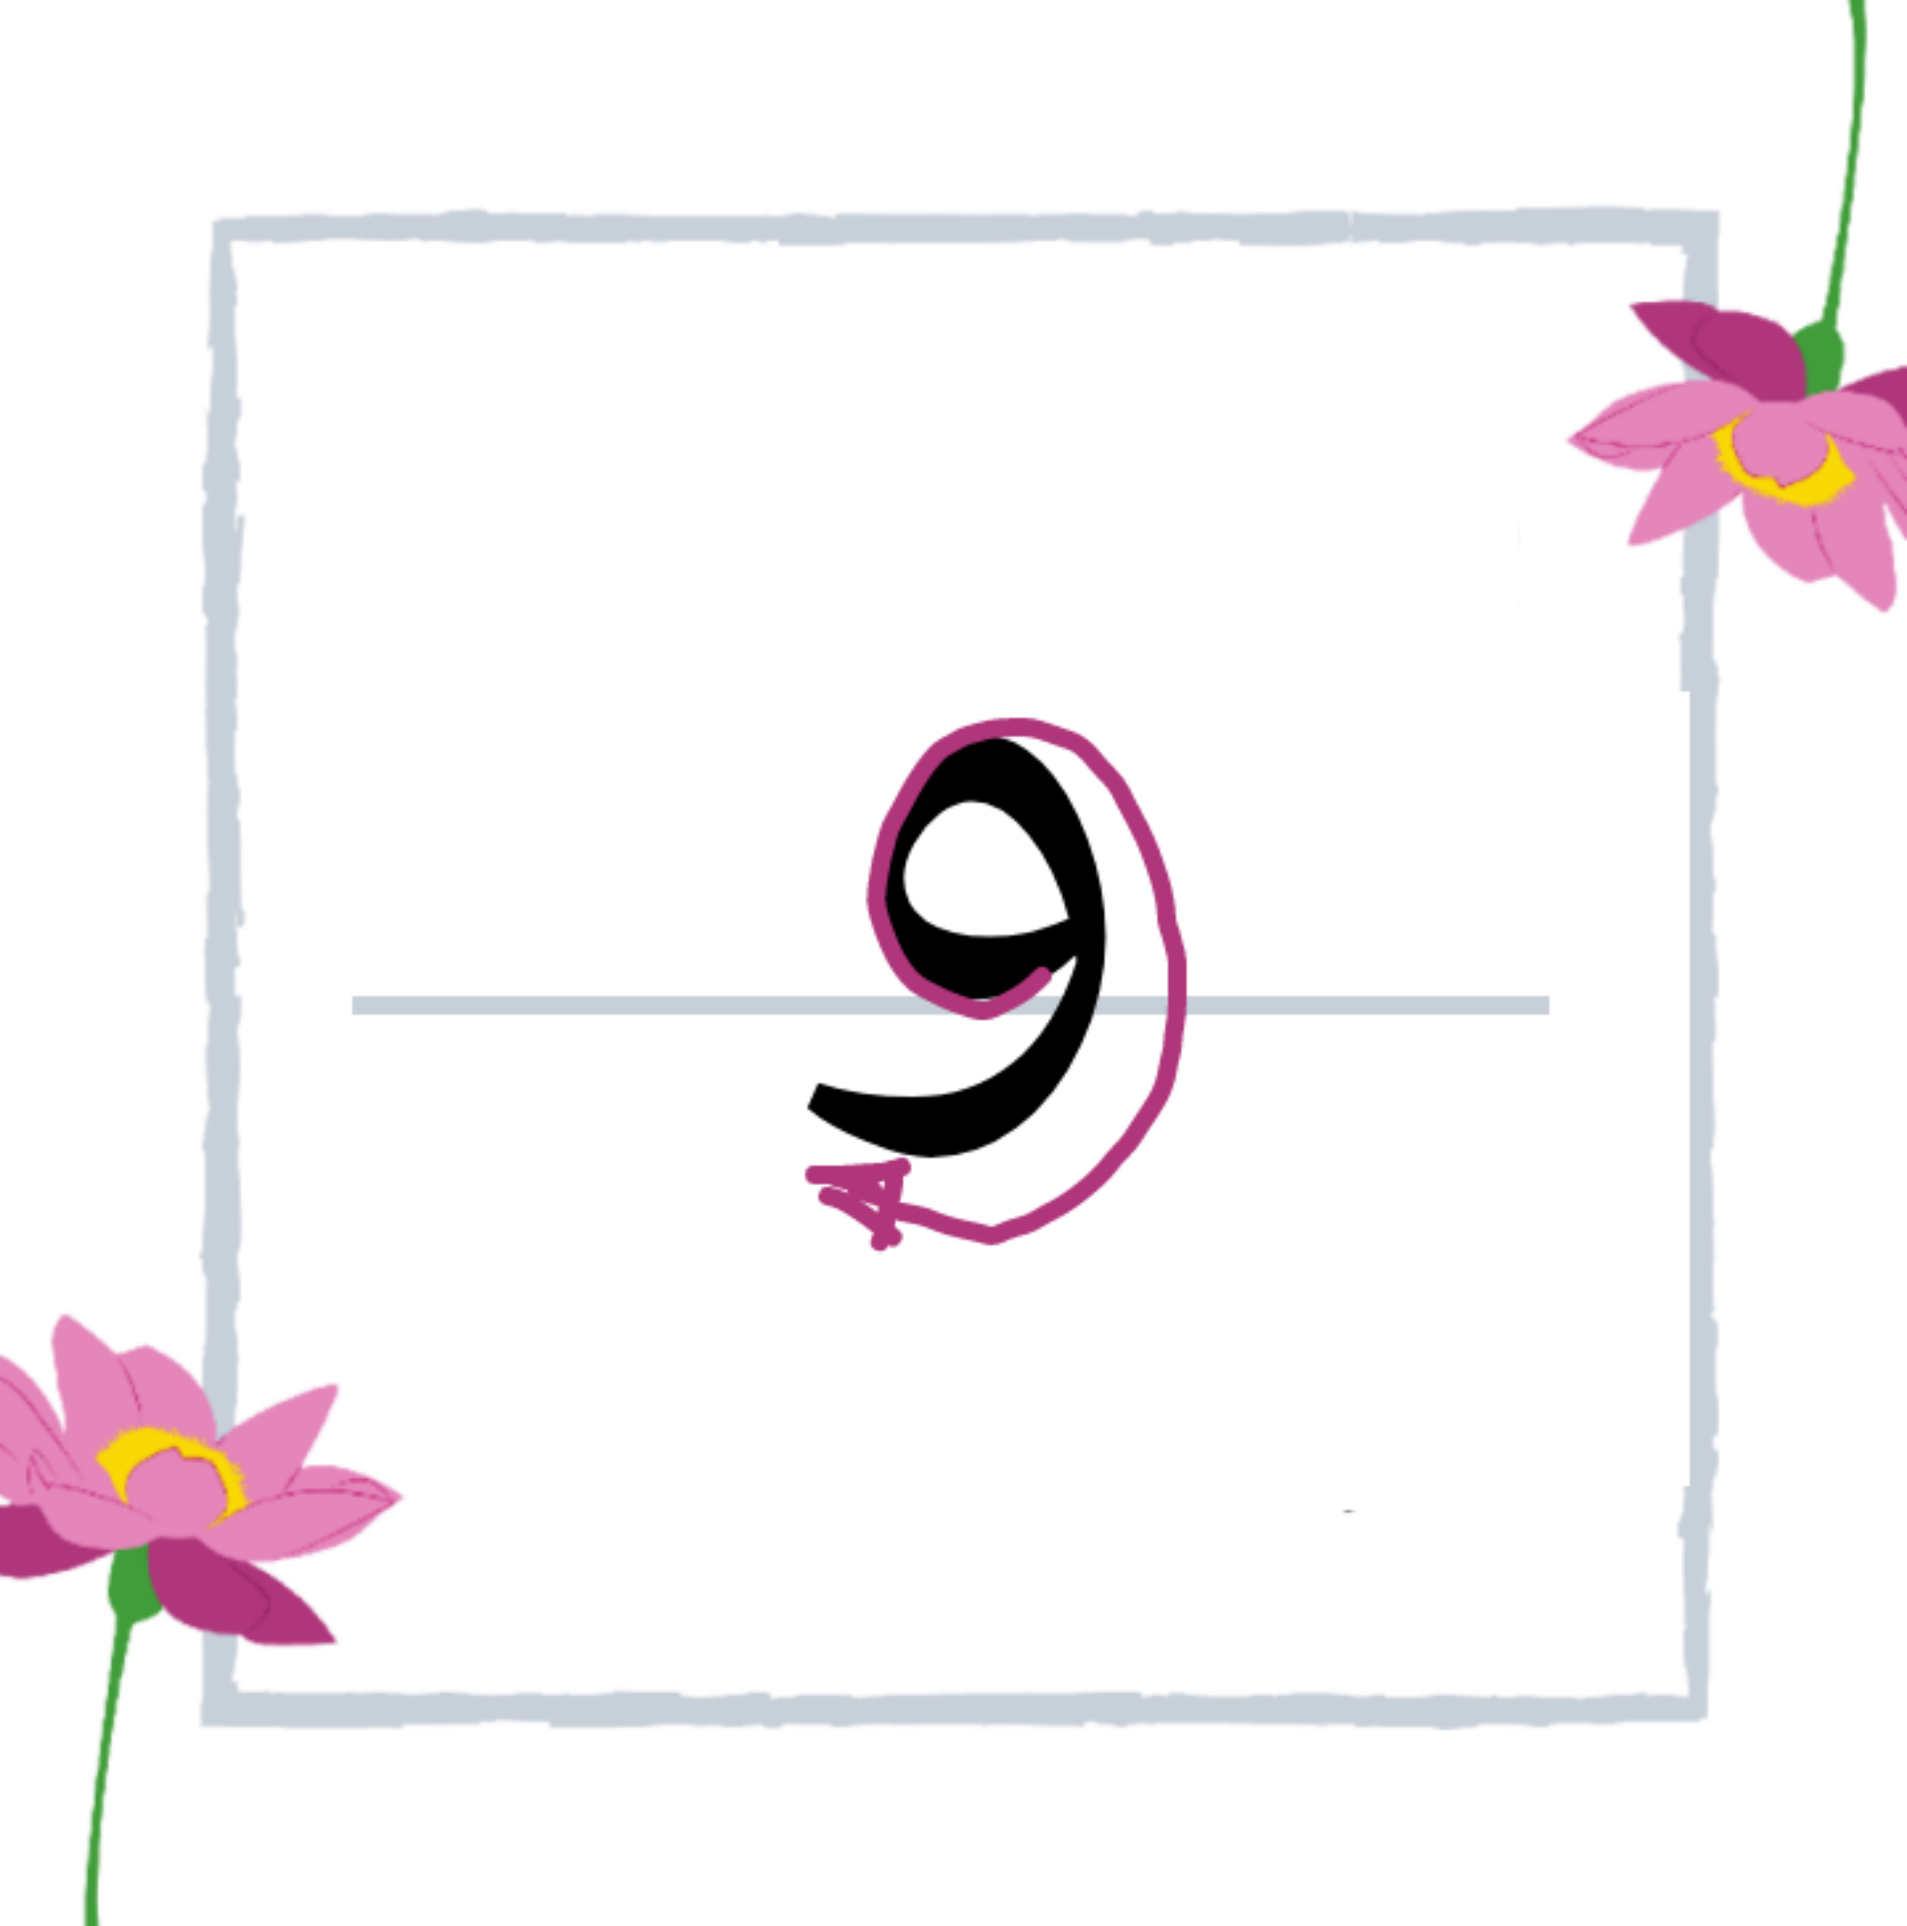
Lesson 23

The 27th letter in the Arabic alphabet is the letter WAW. The equivalent of the sound of the letter is the letter W like when we say 'Wow'.



اَوُ - أُوُ

With short vowels:

وَ وِ وُ

و

End	Middle	Beginning
ـو و	ـو و	و

*When the و comes in the middle, if preceded by a letter that doesn't allow joining then it will be written like in the beginning, and if it's preceded by a letter that doesn't allow joining when at the end it will be in its original form.

Letter و does not allow joining afterwards

وُتِرَ أَوِ إِوَ
